approved by N8N

Agentic AI & Automation Ecosystem Diploma

From LLM Foundations to Full Production Ecosystems — No Code Required

Personalized Projects · Real Systems · Production Outcomes

~40h

Live Instruction

14

Sessions

25+

Workflow Builds

7

Industry Tracks

MENA

Market Focus

Why Most AI Training Fails

✗ What the Market Offers

- ✗ Courses built around tools, not systems
- ✗ Prompt tricks — no automation architecture
- ✗ Zero local AI deployment coverage
- ✗ No MCP, agents, or multi-model routing
- ✗ Theory with no live capstone defense
- ✗ No infrastructure or database context

✓ What Elevorix Delivers

- ✓ End-to-end ecosystem thinking from day one
- ✓ LLM → automation → RAG → agents → deploy
- ✓ Local stack: Docker · n8n · Ollama · PostgreSQL
- ✓ MCP connections: Claude + Codex + n8n
- ✓ Vibe coding for AI-powered frontends
- ✓ Live capstone: real data, quantified ROI

Everything in One Program

25+

Workflow Builds

15:1

Max Ratio

2 yr

Certificate

What You Build

- ▶ Your personalized AI ecosystem
- ▶ Complete n8n workflow portfolio
- ▶ RAG system from your documents
- ▶ Local LLM infrastructure (Ollama)
- ▶ Multi-agent orchestration
- ▶ AI-powered frontend via vibe coding

Tools You Master

- ▶ n8n (n8n-Approved Curriculum)
- ▶ Claude API + MCP Protocol
- ▶ OpenAI / Codex / OpenRouter
- ▶ Docker + PostgreSQL + Qdrant
- ▶ Google AI Studio · NotebookLM
- ▶ Ollama + local LLMs (Mistral, Phi)

What You Leave With

- ▶ Live Persona OS capstone defense
- ▶ 25+ named workflow portfolio
- ▶ n8n Approved Diploma credential
- ▶ Architecture documentation pack
- ▶ 90-day roadmap + alumni access
- ▶ Free company demo session

Built for Builders and Leaders

Perfect For

- ✓ Senior managers leading AI transformation
- ✓ Founders replacing manual overhead with AI
- ✓ Operations leads building ecosystem at scale
- ✓ Consultants delivering production AI for clients
- ✓ Graduates gaining deployable workflow skills
- ✓ Anyone using AI manually who wants to automate

Not Suitable If

- ✗ Looking for a theoretical AI overview
- ✗ Expecting a certificate without building systems
- ✗ Unwilling to create accounts for tools
- ✗ Software engineers wanting pure-code automation

Three Acts — Zero to a Live AI System

ACT 1 S1–S4

Foundation

~14h · 4 Sessions

- AI & LLM selection
- prompt engineering mastery
- n8n core automation
- scheduling and multi-touch sequences
- your first live workflows running on real data.

ACT 2 S5–S9

Build Your Ecosystem

~15h · 5 Sessions

- Research APIs
- CRM intelligence, financial automation
- document & knowledge systems
- prompt template infrastructure — all on your sector's real data.

ACT 3 S10–S14

Own & Deploy

~11h · 5 Sessions

- AI agents + approval gates
- local infrastructure (Docker, n8n, Ollama)
- MCP connections
- vibe coding for frontends
- industry capstone + live OS defense.

14 Sessions · 3 Blocks · One System

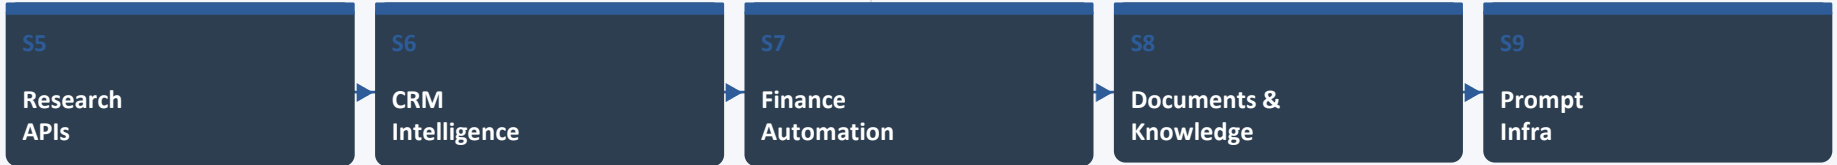

BLOCK 1 — FOUNDATION

S1–S4 · AI & LLM Fundamentals + n8n Core Automation

BLOCK 2 — INTELLIGENCE

S5–S9 · Research APIs · CRM · Finance · Documents · Knowledge

BLOCK 3 — ECOSYSTEM

S10–S14 · Agents · Local Stack · Vibe Coding · Capstone Defense

All Connected Through n8n

Build, Own & Control Your AI Stack

Claude MCP + Codex

Reasoning · Tool-calling · Code generation

n8n (self-hosted)

Orchestration · Triggers · Approvals · Agents

Ollama (local LLMs)

Privacy-safe · Mistral · Phi · LLaMA

PostgreSQL + Qdrant

Persistent data · Vector search · RAG memory

Docker Compose

Container orchestration · Networking · Auto-restart

MCP Connections (Claude)

 Gmail / Outlook

 Google Drive / Docs

 HubSpot / Salesforce

 GitHub / Codex

 Notion / Airtable

 Slack / Teams

When Do You Need a Real Developer?

- Custom auth systems (OAuth, SSO, multi-tenant)
- Complex database schemas + migrations
- Production frontend beyond vibe-coding scope
- High-volume API backends (10,000+ req/day)

Real Workflows. Real Sectors. Real Value.

Customer Service AI

- ▶ Ticket triage + urgency routing
- ▶ RAG policy knowledge assistant
- ▶ Escalation to human with context

Sales CRM Automation

- ▶ Lead scoring + enrichment pipeline
- ▶ Deal stage intelligence alerts
- ▶ 5-touch outreach sequences

Media Buying & Ads

- ▶ Campaign brief auto-generation
- ▶ Performance report synthesis
- ▶ Budget reallocation alerts

Content Creation

- ▶ Multi-channel content calendar
- ▶ Research → draft → review flow
- ▶ Publishing automation workflow

Personal AI Scheduler

- ▶ Morning brief + task prioritization
- ▶ Email triage + draft responses
- ▶ Weekly review compilation

High-Memory Assistant

- ▶ Long-term RAG knowledge base
- ▶ Personal knowledge ingestion
- ▶ Board-level report orchestrator

Multi-Agent System

- ▶ Researcher → Analyst → Writer
- ▶ Sub-agent tool boundaries
- ▶ Human approval at output gates

Your Ecosystem. Your Sector. Your Data.

Every student selects a Persona OS before the build phase. Every session adds a live component to the same integrated system.

ConsultOS Management Consulting	AgencyOS Digital Agency	SalesIntelOS B2B Sales	FinanceOS Finance & Accounting	PropertyOS Real Estate
TalentOS HR & Talent	RetailOS E-Commerce	FreelanceOS Freelance	StartupOS Tech Startup	CustomOS Your Own Sector

WHAT YOU DELIVER AT GRADUATION

4+ live workflows on real data	Architecture documentation	Business value quantified (ROI)	90-day improvement roadmap	Live 8-min OS defense
--------------------------------	----------------------------	---------------------------------	----------------------------	-----------------------

Not a homework project — a live system on your real business data, demonstrated in front of your cohort.

25+ Named Production Workflow Assets

Foundation & CRM

- W01 Smart Inbox Classifier
- W02 Telegram Urgent Alert
- W03 Daily Morning Brief
- W04 5-Touch Follow-Up Sequence
- W05 Enquiry Research Pipeline
- W06 Deal Stage Intelligence
- W07 Account Health Scoring
- W08 Ghosted Proposal Re-engagement

Finance & Intelligence

- W09 Invoice Reminder — Tier 1
- W10 Invoice Escalation — Tier 2
- W11 Invoice — Tier 3 / Legal
- W12 Daily Cash Position Monitor
- W13 Google Drive Document Monitor
- W14 Knowledge Memory Ingestion
- W15 Board Report Orchestrator
- W16 JSON Template Loader

Infra · Agents · Capstone

- W17 Universal Approval Gate
- W18 n8n AI Agent Node Lab
- W19 Local n8n + Docker Setup
- W20 Ollama Model Router
- W21 MCP Claude Connector
- W22 RAG Knowledge Assistant
- W23 Vibe-Coded AI Frontend
- W24 Full Persona OS Capstone

3 Cohorts. 20 Graduates. Systems Running.

✓ n8n APPROVED CURRICULUM

Independently reviewed and approved by the n8n Education Team (Jamie Madden, n8n.io). Not self-declared — externally verified.

3

Cohorts Completed

20+

Graduates Deployed

60+

Production Workflows

63%

n8n Instruction

GRADUATE PRODUCTION OUTCOMES

Finance / Consulting

Tiered invoice collection (3 levels) — eliminated all manual AR chasing

Airtable + Switch + Telegram Gate

Marketing Agency

CRM intelligence — deal alerts, health scores, weekly reports for 6 staff

HubSpot + Claude + Notion + Schedule

B2B Sales

Enquiry response: 4 hours → 8 minutes via AI research + draft pipeline

Gmail + Manus + Claude + Telegram

Operations / HR

CV screening + 3-tier support triage — both in production

Gmail Trigger + OpenAI + Switch

Six Reasons This Stands Apart

Production-Grade Only

We show failures, teach limitations, and build for reality — no demos that break on real data.

n8n Approved Curriculum

Independently reviewed by the n8n Education Team — not self-declared, externally verified.

Ecosystem Architecture

LLM → automation → RAG → local infra → MCP → vibe coding — a complete professional stack.

Real Industry Outcomes

20+ graduates with production systems. Response times cut from hours to minutes. Measured ROI.

Living Certificate

2-year validity with 6-month revalidation as n8n, Claude, and LLM APIs continue to evolve.

MENA-First Design

Cairo-based delivery. Arabic support. MENA market focus. Currency-aware API cost guidance.

FREE FOR COMPANIES & TEAMS

✓ Free Orientation Session

✓ Free Case Study Walkthrough

✓ Free Company Demo

✓ B2B Custom Cohorts

Stop Using AI. Start Operating It.

Individual Enrollment

Contact for Pricing

- ✓ All course materials & resource library
- ✓ Classroom recordings (1 year)
- ✓ Certificate upon successful completion
- ✓ Lifetime alumni community access

Corporate / B2B Training

Contact for Pricing

- ✓ Custom cohorts for teams (5–50+)
- ✓ Company-specific workflow builds
- ✓ Flexible scheduling & pacing
- ✓ Free orientation session included

HOW TO ENROLL

1

Reach Out

Email or WhatsApp — your goals and background.

2

Confirm & Enroll

Intake form, onboarding pack, seat confirmed.

3

Start Building

Join workspace, pre-work, begin Session 1.
